REGION 5  
CHICAGO, ILLINOIS

103 MAIN Refer to: St. Clair County - Sauget/W.G. Krumrich Plant?

December 19, 1979

Mr. Michael King, Mayor

City of Cahokia

103 Main Street

Cahokia, Illinois 62206

200 Church Hill Road

Dear Mayor King:

This is in response to your letter of October 31, 1979 regarding the above referenced site.

This is a proposed expansion of an existing facility. Special waste storage and incineration is proposed at this site. No disposal on land will occur.

Permits have been issued from the Agency's Division of Air Pollution Control for the incinerator. On December 17, 1979, this Division issued a permit to develop the special waste storage area.

We are concerned as to the type of material that may be dumped. We hope this information will be helpful to you. If you have any further questions, please do not hesitate to contact this office. Assuming that this "site" will be located near the Mississippi River we would Sincerely, appreciate more information since our community's water supply is the river.

Thank you for this opportunity to comment on this development.

Thomas E. Cavanagh, Jr., Manager

Land Permit Section

Division of Land/Noise Pollution Control

Pollution Control  
2200 Churchill Road  
Springfield, Illinois

Subject: W.G. Krummrich Plant, Route 3, Sauget, Illinois  
Application for Development Permit to Develop  
a Site.

Gentlemen:

We received notice of the above-mentioned proposed site development on October 22, 1979.

We are concerned as to the type of material that may be dumped at this site. The W.G. Krummrich Plant manufacture's various types of chemicals, including hazardous, and presuming that this "site" will be located near the Mississippi River we would certainly appreciate more information since our community's water supply is the river.

Thank you for this opportunity to comment on this development.

Sincerely,

*Michael King*
